

CALL FOR PAPERS

FOMO4CDM: Foundation Models for Clinical Decision Making

WHEN

21 October 2026

WHERE

Maastricht University
Dept. of Advanced
Computing Sciences

SUBMISSION
DEADLINE

20 September 2026

USEFUL LINKS

WORKSHOP
trailabnl.github.io/FOMO4CDM
CONFERENCE
maastrichtuniversity.nl/bnaic2026

THE SESSION

Foundation models are rapidly reshaping clinical AI. FOMO4CDM examines their role in clinical decision making through three lenses: **representation**, **clinical reasoning**, and **interaction**. We invite short **two-page extended abstracts** on ongoing or completed work.

TOPICS

Representation learning

Multimodal clinical data

Clinical reasoning & decision support

Conversational & interactive AI

Human-AI collaboration

Adaptation & evaluation

Interpretability & robustness

Responsible AI: fairness, privacy, safety

Real-world deployment

INVITED KEYNOTE

Maarten De Vos
Professor, KU Leuven

To be announced
Second keynote speaker

SESSION ORGANIZERS

**Majid Lotfian
Delouee**
Amsterdam UMC

**Andrea
Rafanelli**
Amsterdam UMC

Joe C. Song
Universiteit van
Amsterdam

Sjors in 't Veld
Amsterdam UMC

Martijn Schut
Professor,
Amsterdam UMC

ABSTRACTS DUE

20 September 2026

Two-page extended abstract · via Google Form · accepted work is invited to present. Registration is part of BNAIC 2026 conference registration.
